

SOLANA WALLET INTELLIGENCE

Follow the evidence.

Degen curiosity. Intelligence discipline.

A bold red-and-white identity built for researchers who look closer.

MAGNIFIER + CONNECTED SIGNALS

Curiosity, with receipts.

An investigation brand for people who want to understand what happened on-chain.

POSITIONING

Degentelligence turns closely timed Solana token purchases into a clear starting point for investigation, with traceable transactions and wallet context.

BRAND PROMISE

See the pattern.
Inspect the evidence.
Make your own call.

01

Observant

Notice grouped activity without inventing a story.

02

Precise

Show sources, time windows, and coverage clearly.

03

Independent

Give researchers context and room to think.

One lens. Connected evidence.

The magnifier signals investigation; three linked nodes make the intelligence idea visible.

Degentelligence

PRIMARY HORIZONTAL SIGNATURE

AVATAR / RED TILE

SYMBOL

Use the magnifier alone in compact spaces once the full brand name is visible nearby.

EXACT NAME

Degentelligence
Capital D. One word. Keep this spelling in all public-facing copy.

Use the full name for first contact. The three nodes suggest grouped signals; they do not assert shared wallet ownership.

Give the mark room to think.

Keep the magnifier upright, the wordmark intact, and every internal detail visible.

CLEAR SPACE

Keep at least x around the complete signature. For the lockup, x equals the capital D height. For the symbol alone, x equals one inner node diameter.

MINIMUM DISPLAY SIZES

32 PX

48 PX

Symbol: 32 px visible height; 48 px preferred.
Horizontal signature: 240 px wide minimum.
Print: symbol 10 mm; signature 60 mm wide.

KEEP IT CONSISTENT

Never stretch, rotate, add shadows, change the node layout, or replace the magnifier with a stock search icon. Use red on white or the supplied red avatar tile.

Sizes refer to visible artwork, excluding transparent file padding. Below 32 px, use a solid red tile until a simplified micro mark is prepared.

Red leads. White makes it clear.

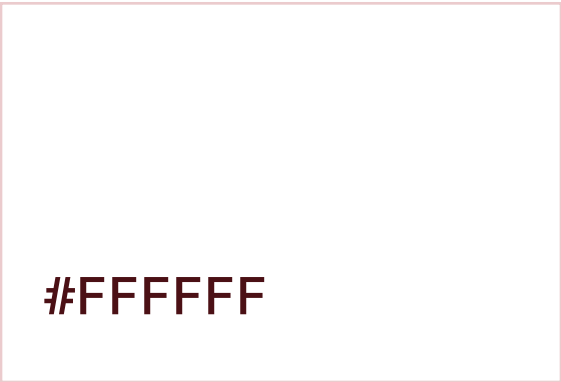

A focused palette: one signal color, generous white space, and a deep red for reading.

Signal Red

RGB 215 / 25 / 32

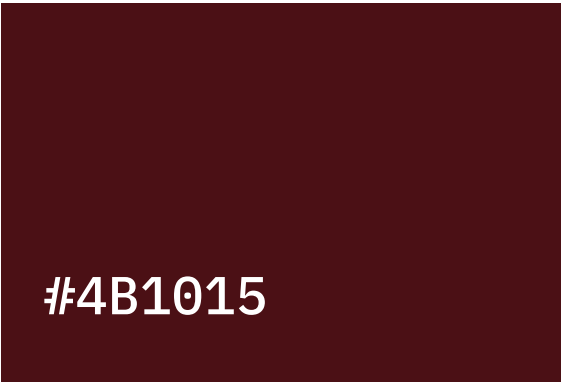

Actions, identity, emphasis

White

RGB 255 / 255 / 255

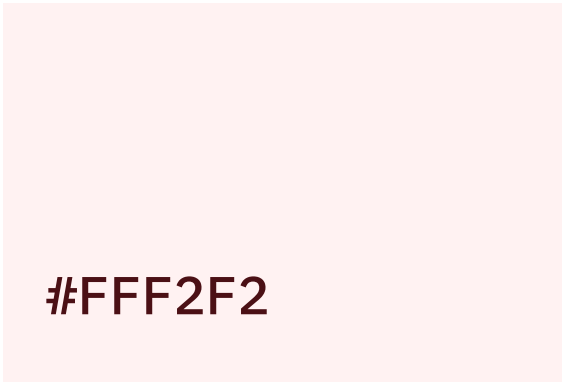

Canvas, space, reversed type

Deep Red

RGB 75 / 16 / 21

Headlines and body copy

Soft Red

RGB 255 / 242 / 242

Quiet panels and selected rows

BALANCE

Typical interface: 75% white, 15% soft red, 10% signal red. Campaigns may use full red.

CONTRAST

White / Signal Red: **5.19:1**
Deep Red / White: **15.17:1**
Both meet 4.5:1 for normal text.

SUPPORTING TOKENS

Muted text #7C484C
Dividers #EBCBCD
Hover red #B5121B

Sharp headlines. Readable evidence.

Manrope carries the voice. IBM Plex Mono makes addresses, numbers, and timestamps easy to scan.

Aa

MANROPE

Primary family

800: wordmark and display

700: headings and labels

400-500: body and UI

Look closer.

Every pattern has a source.

Follow grouped purchases, inspect the wallets, and open the transactions behind the event.

IBM PLEX MONO / 400 + 500

03 wallets 18s 12:04:28 UTC

7xKp...9vQm \$120.00 +\$35.00

Digital scale: display 56/62, H1 36/44, H2 24/32, body 16/24, label 12/16 px. Use sentence case; reserve uppercase mono for short metadata.

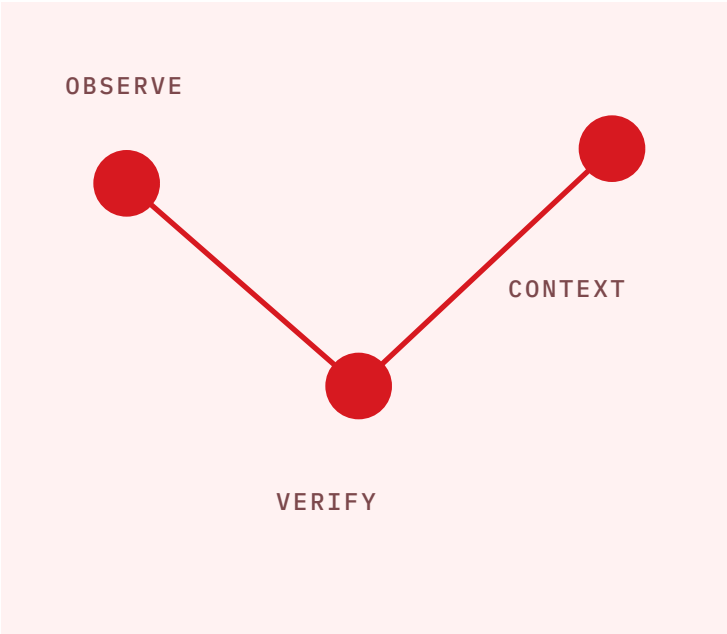

Build around the act of looking.

Use lens circles, focused crops, and connected evidence as the recurring visual vocabulary.

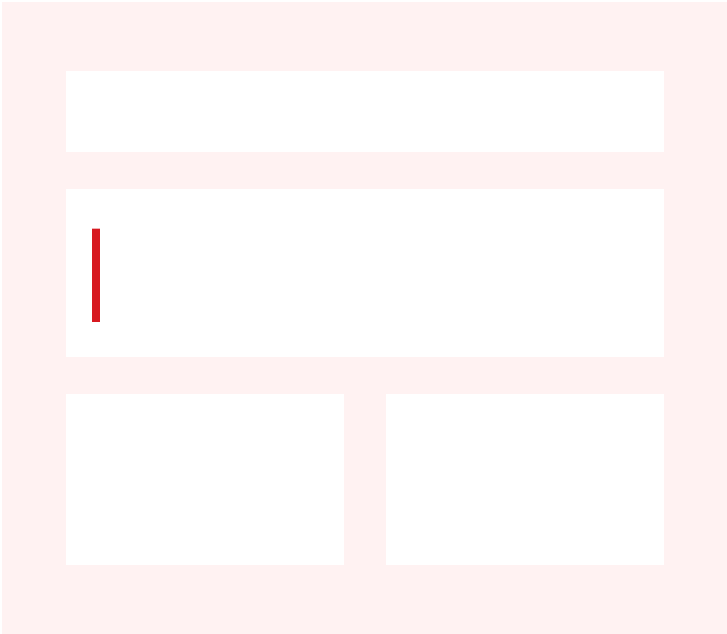

01 / LENS CROPS

Large open circles frame a headline or image. Crop the motif; keep the logo intact.

02 / EVIDENCE LINES

Sparse nodes and precise connectors. Treat decorative networks as illustrations.

03 / ORDERED SPACE

Use an 8 px spacing grid, 24 px gutters, 8 px card corners, and 1 px dividers.

Confident in what we can show.

Be direct, observant, and transparent. Let the evidence create interest.

CORE LINE

Follow the evidence.

Short description: Solana wallet intelligence for curious researchers.

WRITE THIS

3 wallets bought within 18 seconds.

Smart Money context is unavailable.

Open the transactions behind this event.

AVOID THIS

Insiders are definitely loading.

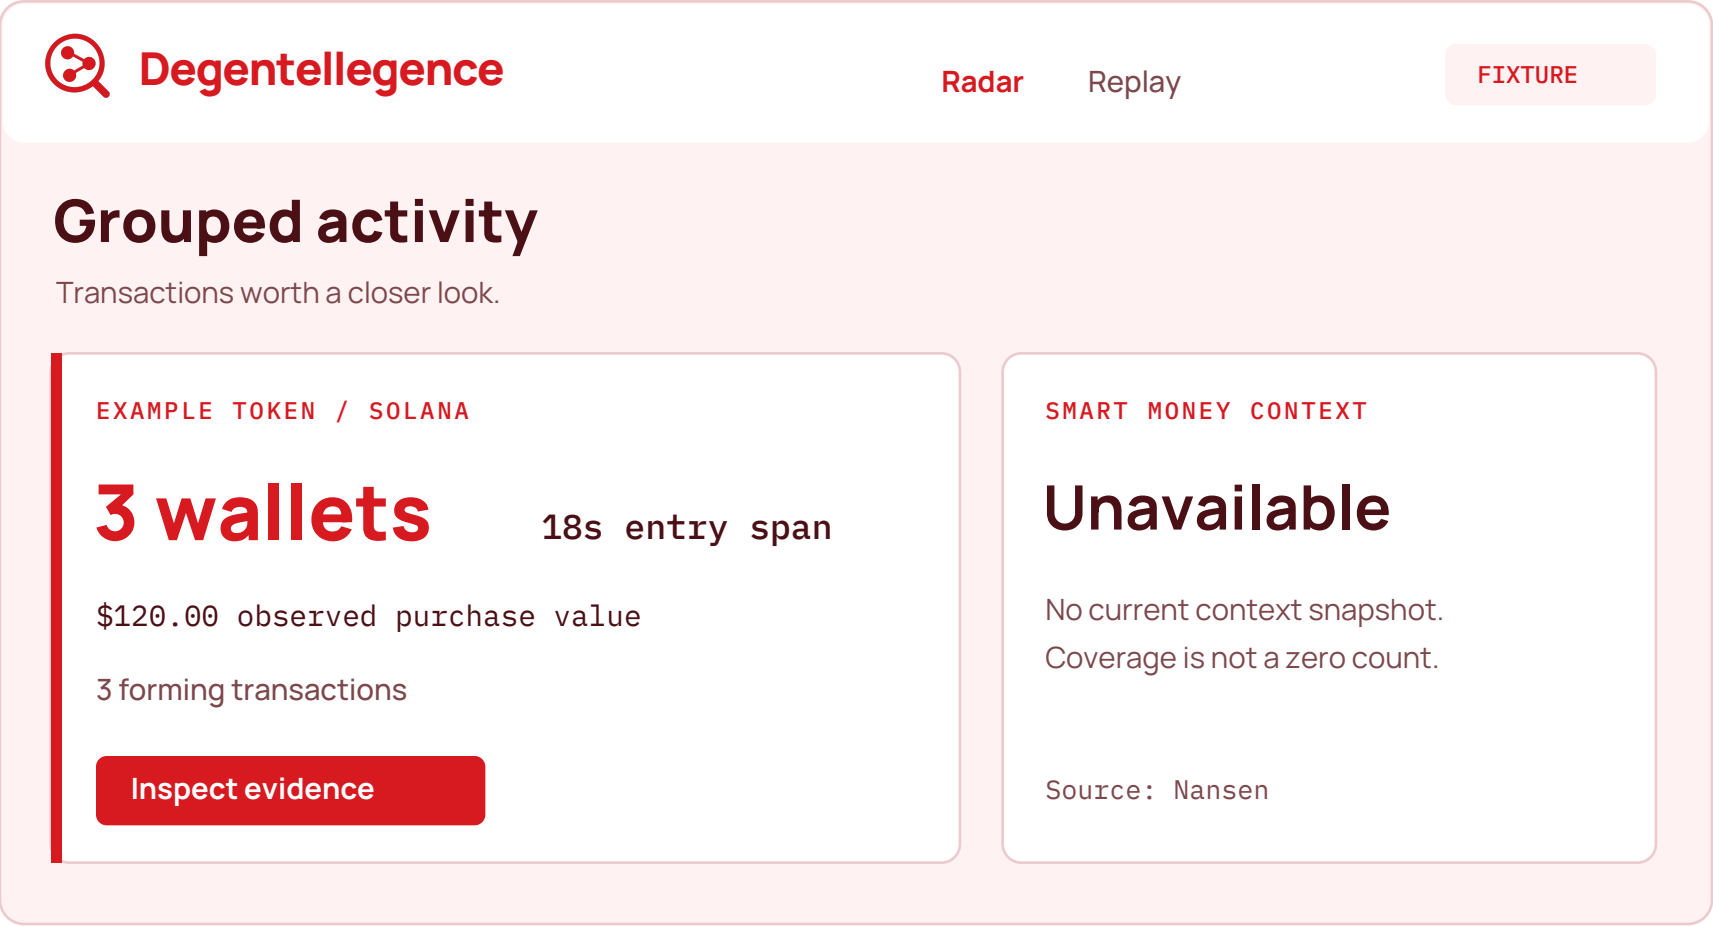

No Smart Money activity.

Catch the next guaranteed 100x.

Use specific observations, time windows, and source links. Distinguish zero, partial, stale, and unavailable data. Keep slang to occasional campaign copy.

Make the evidence the interface.

Illustrative screen. All figures below are synthetic examples, not live market observations.

RESEARCH FIRST

Keep transaction evidence separate from additional Smart Money context.

RED = ATTENTION

Use red for a primary action or selected event. It does not mean profit, loss, or certainty.

ALWAYS LABEL STATES

Pair color with words and icons. Keep fixture, replay, and live modes visible.

An identity that stays recognizable.

Use one message, one focal point, and a clear invitation to investigate.

Degentelligence

Follow the evidence.

Solana wallet intelligence.

LANDING PAGE / SOCIAL COVER

RESEARCH NOTE / 001

A pattern is the beginning.

Open the transactions.
Understand the context.

RESEARCH SERIES / SOCIAL CARD

A clear system, ready to use.

Use this guide as the reference for future product screens, social posts, and presentations.

IN THE BRAND KIT

Brand guidelines

This 11-page PDF + editable Markdown reference.

Logo assets

Red transparent symbol + white-on-red avatar PNG.

Design tokens

CSS colors, fonts, spacing, corners, and focus style.

Typography

Manrope and IBM Plex Mono, with license files.

Artwork note: the supplied logo images are raster masters. Palette values are the production color targets; image pixels may vary slightly. Keep PNGs at or below native resolution.

BEFORE YOU SHIP

- 01 Spell Degentellegence exactly.
- 02 Use the supplied logo proportions.
- 03 Keep text readable and whitespace generous.
- 04 Use a clear action: Inspect evidence.
- 05 Label synthetic examples and data coverage.
- 06 Describe observations without profit promises.

References: the four supplied PackLens documents informed product context only. Degentellegence is the requested public brand. Font and contrast sources are linked in the editable guide.
